

Connecticut Safety Academy

The Connecticut Safety Academy offers a wide range of workshops focused on current and developing topics applicable to all local roadway users. Safety Academy classes are offered free of charge to all participants. Participants are awarded the designation of Safety Academy Champion, at our annual graduation ceremony, following the completion of 40 Safety Academy credit hours.

Timely topics are presented each year. Here is a sample of some of our topics:

- Road Safety Assessments
- Safe Transportation for Every Pedestrian (STEP)
- Sign Installation & Maintenance
- Speed Management
- ADA Self Assessments & Transition Plans
- Complete Streets
- Low-Cost Safety Improvements

270 Middle Turnpike, Unit 5202

Connecticut Safety Circuit Rider Program

Of the 45,000 public road lane miles in Connecticut, 35,000 or 78% are maintained by local municipal agencies. Yearly, approximately 50% of fatal and serious injury crashes occur on these local roadways. To make significant progress in reducing the number of serious injuries and fatalities in Connecticut, the safety along local roadways needs to improve. The Connecticut Safety Circuit Rider (SCR) program is designed to provide safety-related information, training, and direct technical assistance to agencies responsible for local roadway safety.

Our Services

The SCR program is available at no cost to all municipalities in Connecticut. Services provided through the program include:

- Coordination of Road Safety Assessments (RSAs)
- Equipment loans
- Collection and analysis of traffic data
- Identification of low-cost safety improvements
- Assistance in the development of Local Road Safety Plans
- Development of Road Safety Briefs
- Delivery of Local Road Safety Training through the CT Safety Academy

Our Resources

A strong partnership between the CT SCR program and the Connecticut Transportation Safety Research Center (CTSRC) enables local agencies to access accurate information to make informed roadway safety decisions. The SCR provides assistance to local agencies in understanding the capabilities of the CT Crash Data Repository.

Helpful safety resources provided by the SCR Program include:

- Local Road Safety for Elected Officials
- Connecticut Local Traffic Authority Education Program
- Connecticut Complete Streets Information Exchange
- Road Safety Briefs
- ADA Compliance Toolkit
- Connecticut Repository of Safety Examples
