Custom Training Program

We will customize a session to meet the needs of your employees.

The Connecticut Training & Technical Assistance (T2) Center Custom Training Program offers a variety of affordable safety training options to meet the needs of your workforce. We will customize a session for your organization based on the needs of your employees.

The Benefits of the Custom Training Program

- **Training on a variety of important employee safety topics** including OSHA standards and Flagger Certification to help meet your training requirements.
- **Training right at your location**—no additional time and expense needed for travel and overtime. We will handle the paperwork and invoice you once the class is completed.
- **Customized training**—We will work with you to develop a class on a topic that you feel is important for the safety and education of your workforce, by focusing on your specific areas of need.
- **High quality instructors** that are experts in their field and vetted by the CT Training & Technical Assistance Center to provide the latest best practices and technology.
- **Earned credit** towards our certificate programs.

Custom Training Programs

The following is a **partial listing** of Custom Training Programs that we offer. Please remember that we will customize or create a session on any topic based on the needs of your group.

Class minimums vary between 10 to 30 participants. Contact the T2 Center for specific information on the class you are interested in.

- ATSSA Flagger Certification
- Chainsaw Safety & Storm Cleanup
- On the Job Safety
- Forklift Operator Safety
- Large Mower Operations & Safety/Load Securement
- OSHA-10 Hour
- Work Zone Safety
- Trenching & Shoring Competent Person
- Confined Space Competent Person
- Winter Operations topics
Your Role In the Custom Training Partnership

1. Select a training program that best fits your needs.
2. To discuss available options and to arrange a session contact:
   Lisa Knight: lisa.knight@uconn.edu.
3. You will be advised of the program fees and the minimum/maximum number of attendees.
   If you do not have the minimum number of attendees, feel free to contact your colleagues
   from other agencies to help you meet the minimum.
4. Provide a training space that will comfortably hold the participants and is suitable for
   viewing a PowerPoint presentation and for any course related activities.
5. Prior to the class, provide us with the attendee list.
6. We will invoice and forward you certification cards (where applicable) following your
   session.

Custom Program Attendee Testimonials

- **Defensive Driving for Snow Plow Operators**: “Thank you very much for your assistance with setting up this class for us. The class was phenomenal! Kudos to Bill, his preparation, materials and presentation!”
- **ATSSA Flagger Certification**: “Instructor was exceptionally knowledgeable and very good at his job.”
  “Very informative, organized class.”
- **OSHA 10 Training**: “OSHA is a very confusing subject, but Adam made it enjoyable, fun and I learned a lot.”
- **Trenching and Shoring**: “The combination of videos and PowerPoint presentation really drove home the need for safety/planning that needs to go into every trench job.”

Custom Class Fees

The Custom Training Program is a flexible and cost effective method for providing education for your employees.

Fees will vary depending on the length of the course and course content.
We will work with you to provide affordable training options that are within your budget.
