A Connecticut Road Scholar Program ELECTIVE Workshop

Green Stormwater Infrastructure (GSI) Roundtable

Join us and our friends from the University of Connecticut's Center for Land Use Education and Research (CLEAR) for a roundtable on Green Stormwater Infrastructure (GSI) practices. We will delve into the low impact tools and methods that are being used to handle stormwater in a sustainable, less impactful way. During this roundtable there will be opportunities for Q&A and peer exchange to share successes and challenges faced during GSI implementation.

Additionally, attendees will take a tour of some of UConn's GSI projects including pervious pavements, rain gardens, bioretention, and green roofs to learn more about construction, maintenance best practices, and lessons learned in building and maintaining these important structures over time.

Session is 1:00pm - 4:00pm

Registration begins at 12:30pm

Afternoon refreshments will be provided

Free. No registration fee is charged for this class

**October 3, 2025
Storrs, CT**

Who Should Attend

- Directors of Public Works
- Town Engineers
- Stormwater Coordinators
- Planners
- Elected Officials

Please visit s.uconn.edu/t2schedule to register online.
