Assistance Center

CT TRANSPORTATION INSTITUTE

UNIVERSITY OF CONNECTICUT

A CT Traffic Signal Technician Certificate Program Level III REQUIRED Workshop

Signal Coordination

The focus of this workshop will be on developing coordination plans and implementing them utilizing internal controller programming. Traffic signal coordination refers to the process in which two or more intersections are synchronized, so vehicles can pass through each intersection without stopping. Participants will gain an understanding of each controller within the system operating with a cycle length, offset, and split.

Session is 8:30am - 3:00pm

Registration begins at 8:00am

Lunch will be provided

**\$100 - State and Municipal
\$200 - Private Sector**

**October 15, 2025
Southington, CT**

Who Should Attend

- Traffic Signal Technicians
- Aspiring Traffic Signal Technicians
- Transportation Professionals interested in applying signal coordination to improve traffic flow
