

# A CT Traffic Signal Technician Certificate Program Level I REQUIRED Workshop

## Traffic Signal Maintenance

This workshop offers a comprehensive introduction to traffic signal maintenance, covering preventative, reactive, and response-based approaches. Participants will explore the key elements of an effective preventative maintenance program, learn how to identify and replace common components, and understand the importance of thorough maintenance inspection and documentation. The class will also examine how strong preventative maintenance strategies can help reduce liability risks.

**Session is 8:30am - 3:00pm**

**Registration begins at 8:00am**

**Lunch will be provided**

**\$100 - State and Municipal  
\$200 - Private Sector**

**August 12, 2025  
New Britain, CT**

### Who Should Attend

- Traffic Signal Technicians
- Those interested in becoming Traffic Signal Technicians
- Transportation professionals interested in gaining a better understanding of how traffic signals are maintained.
