OSHA 10 Hour Roadway Construction Training

A CT Road Master Program *ELECTIVE Workshop*

This training program has been developed for the transportation construction industry and is focused on the problems and hazards faced by roadway construction workers. Visual content, case studies and participant activities are geared toward situations that roadway construction supervisors and workers are likely to encounter in their day-to-day activities.

Who Should Attend

All levels of road construction and maintenance personnel are encouraged to attend. Each successful participants will be issued an OSHA 10-Hour Construction Outreach wallet card.

Course Instructor

Adam Drummond is the President National Safety Services, LLC. He is responsible for the development and delivery of NSS' nationally renowned Environmental, Health and Safety training and field service programs. He has over 30 years' experience in the safety training, consulting, and products industry. His experiences include serving as Director of Safety Training Services for a number of national consulting firms. Adam founded National Safety Services, an independent OSHA consulting firm, in 2006 and currently provides ongoing safety services to well over 150 clients.

"Adam by far knows is stuff. Every class he does, he goes above and beyond."

- Road Master Program Participant
