Powers & Responsibilities of a Municipal Local Traffic Authority

A CT Local Traffic Authority *REQUIRED* Workshop

Local Traffic Authorities (LTAs) are responsible for establishing traffic regulations and authorizing the installation of traffic control devices in their municipalities.

Join us for an interactive and dynamic workshop where our experts will provide LTAs with a review of these responsibilities and information on the resources and programs that are available to them to accomplish these tasks.

Who Should Attend

This program is designed for Chief Elected Officials, Police Chiefs, Public Works Officials and other municipal personnel who serve in a capacity of Municipal Local Traffic Authority.

Those who assist Municipal Local Traffic Authorities in their duties are also encouraged to attend.

Course Instructor

Robert DeCrescenzo is an attorney with Updike, Kelley & Spellacy, P.C. in Hartford, Connecticut. Attorney DeCrescenzo served as the Local Traffic Authority during his tenure as the Mayor of East Hartford. Upon completion of his term, he returned to the firm to continue in private practice specializing in municipal representation and commercial litigation.

Staff from the Office of the State Traffic Administration, CT DOT Engineering Representatives and Connecticut's Safety Circuit Rider will also be on hand to share their experiences and answer questions.

Dates & Locations
