Road Safety Champion Module #2: Understanding Human Factors

The CT T2 Center is pleased to announce the 2nd session of our virtual Road Safety Champion series for 2024. This session will give an overview of human factors principles, including how road users interact with their vehicle, the roadway, and other road users. We will also discuss why practitioners should consider road users capabilities and limitations in their policies and practices. Armed with this knowledge, construction and maintenance personnel, planners, engineers, public health professionals, and law enforcement can work together to target appropriate countermeasures to help reduce injury crashes.

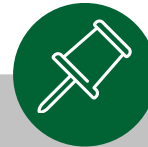

Session is 10:00am - 12:00pm

**2 Credit Hours - CT Safety
Champion Designation**

**Special thanks to the National
Center for Rural Road Safety for
their partnership in developing
these modules.**

**October 24, 2024
Virtual Session**

Who Should Attend

- Elected Officials
- Public Works Directors
- Town Engineers
- Law Enforcement
- Any municipal or state professionals that are interested in roadway safety.
