

CT Safety Academy

Sign Installation & Maintenance

A CT Safety Academy Workshop

Roadway signs are the means by which a local agency communicates the rules, warnings, guidance, and other safety information that drivers need to navigate their roads and streets. This workshop will include examples of proper sign installation practices; roadway safety materials, including breakaway signposts, tamper, and vandal proof hardware; and inspection methods of retro-reflectivity properties. This class includes a field exercise that will allow you to put into practice what is learned during the classroom portion of the workshop.

Who Should Attend

This program is designed for any local personnel who are responsible for the placement and maintenance of traffic signs.

Course Instructor

Melissa Evans is the Safety Circuit Rider at the University of Connecticut's Training and Technical Assistance Center. She has over 20 years' experience working in the public sector. Melissa previously served as the Traffic Operations Coordinator for the Department of Public Works in the Town of Greenwich, Connecticut.

Date & Location

October 12, 2023
North Haven, CT

Session is 8:30am—12:00pm
(Registration begins at 8:00am)

Participants will receive 3.5 credit hours toward their CT Safety Champion Designation

Class Notes

This class includes a field exercise. Please bring a safety vest and wear comfortable shoes for this portion of the program.
