This course is designed to provide participants with the opportunity to assess roadways for pedestrian safety issues and the tools to resolve those issues. The goals of FHWA's STEP initiative and its importance in improving pedestrian safety will be discussed, as well as the EDC-7 Nighttime Visibility for Safety innovation. Participants will conduct a field review of pedestrian facilities and evaluate potential safety improvements.

Who Should Attend

- Public Works Directors and Highway Supervisors
- Local Traffic Authorities
- Engineers and Planners
- Law Enforcement
