### Planning & Managing Local Snow & Ice Operations

A CT Road Master Program *REQUIRED* Workshop

Access to better information, improved equipment and integrating the latest best practices into their operations are helping communities across the region to be better prepared for winter.

This class will provide detailed information on all of the above and give participants a chance to practice what they have learned through storm scenario exercises.

**Please note: These are socially distant sessions. All state and university COVID-19 precautions will be followed.**

#### Who Should Attend

This program is designed for those who have responsibility for snow and ice control activities on state and local roads.

Highway Superintendents, Road Foremen, Crew Leaders, Directors of Public Works and Town Engineers are encouraged to attend.

#### Course Instructor

**Paul Brown** is the President of RoadTech, Inc., a consulting company specializing in road management and pavement maintenance issues. Paul has been teaching road building and maintenance classes for LTAP centers around the country for several years and has been in the construction industry since 1979.

*"Paul was entertaining, extremely knowledgeable in an engineering capacity as well as in a real world practical way. Excellent job!"*
